BUILDBASE
BUILDING & TIMBER SUPPLIES

AN INTRODUCTION TO DRYLINING

At Buildbase we work with quality drylining suppliers to provide a comprehensive range of plasterboard, metalwork, beading and jointing compounds, along with everything needed to complete the project including screws, tape and plaster.

PERFORMANCE PLASTERBOARD

Designed to help achieve compliance with Building Regulations as well as increase the liveability within the property, performance plasterboard offers a range of benefits adapted to the purpose of the room. The range includes solutions for soundproofing, fire protection and moisture resistance.

METALWORK DRYLINING

Offering a high strength to weight ratio with no warp, twist or effects of moisture that timber framework brings, we've increased our range of stud, liner channel, track and resilient bar to bring you a complete quality metalwork system from a UK manufacturer.

YOU NEED IT!**

PERFORMANCE PLASTERBOARD

At Buildbase we have range of performance plasterboard adapted to suit different areas of the building depending on the purpose. Choosing performance plasterboard over the standard board will help to meet the practical and performance needs of new build and refurbishment projects including solutions for soundproofing, fire protection and moisture resistance.

S/E = SQUARE EDGE T/E = TAPERED EDGE

TYPES OF BOARDS

AQUA BOARD	
The Aqua board is designed for rooms with a higher exposure to humidity such as bathrooms, wet rooms and swimming pools. The Aqua board will help to prevent mould, fungal growth, water ingress and expansion cracks.	
SIZE	PRODUCT CODE
850 x 1200 x 12.5mm	2750394

FIRE BOARD	
Suitable for wall linings, partitions and ceilings that require superior fire performance to meet Part B Building Regulations. Fire boards will provide 60 mins fire resistance from a 15mm single layer partition system.	
SIZE	PRODUCT CODE
1800 x 900 x 12.5mm S/E	2750000
2400 x 1200 x 12.5mm S/E	2750020
2400 x 1200 x 12.5mm T/E	2750021
2400 x 1200 x 15mm T/E	2750022

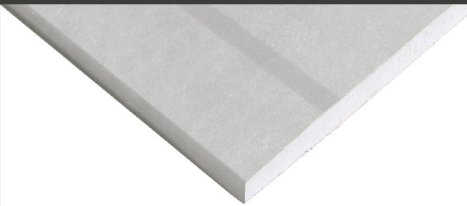

MOISTURE BOARD	
The low water absorption rate will help beat humidity and reducing the risk of cracking or damage. Moisture board is ideal for kitchens and utility rooms with dryers and dishwashers.	
SIZE	PRODUCT CODE
2400 x 1200 x 12.5mm T/E	2750100

**PERFORMANCE PLASTERBOARDS
FOR ALL PROJECTS**

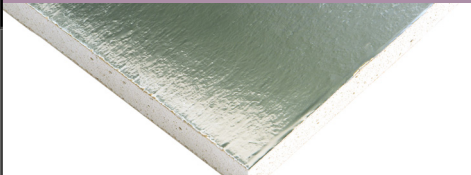

SOUND DB BOARD	
<p>A 30% denser sound-deadening plasterboard, suitable for installation with stud partitions, lining systems and ceilings. Reduce noise disturbance up to 49 decibels deadening sound between rooms and noisy neighbours. A loud conversation and TV noise (averaging around 45 decibels) will be cut and shouting or loud music will be significantly reduced.</p>	
	
SIZE	PRODUCT CODE
2400 x 1200 x 12.5mm T/E	2750110
2400 x 1200 x 15mm T/E	2750105

STANDARD BOARD	
<p>Suitable for partitions, linings and ceilings where normal fire, structural and acoustic levels are specified.</p>	
	
SIZE	PRODUCT CODE
1800 x 900 x 9.5mm S/E	2741100
1800 x 900 x 12.5mm S/E	2741104
2400 x 1200 x 9.5mm S/E	2741160
2400 x 1200 x 12.5mm S/E	2741165
2400 x 1200 x 12.5mm T/E	2741166
2400 x 1200 x 15mm T/E	2741172
2400 x 1200 x 15mm S/E	2741170

TILE BACKER BOARD	
<p>A versatile water-resistant fibre cement tile backing board for domestic bath and shower room installations.</p>	
	
SIZE	PRODUCT CODE
1200 x 800x6mm	2750114
1200 x 800x12mm	2750115

THERMAL BOARD	
<p>Reduce energy costs and improve thermal efficiency up to 29% on your building project. Thermal board is great for ceilings to reduce upward heat loss and in exposed properties that are subject to significant wind-chill.</p>	
	
<p>▶ Thermal EPS board offers up to 21x thermal resistance compared to standard plasterboard</p>	<p>▶ Thermal XP board offers up to 29x thermal resistance compared to standard plasterboard</p>
GTEC EPS BOARD	PRODUCT CODE
2400 x 1200 x 22mm	27503292

DRYLINING METALWORK

Steel stud framing, channels and tracks offer a solid yet lightweight framework which can be easily insulated. The metalwork stocked meets fire regulations and are laser cut to the millimetre for precision when you need it.

Our UK supplier provides a range of roll formed sections from stud and track through to wall liner channels and resilient bar. Roll formed sections benefit from a high strength to weight ratio and lend themselves to a broad range of applications. Often a preferred alternative to timber as there is no wear and tear over time and the steel is not affected by moisture or humidity. The metalwork remains straight and strong providing a longer lifetime, less wastage and less time on site.

When using performance plasterboard such as fire board or thermal board, 70mm studding is recommended due to the weight of the board.

JOINTING COMPOUNDS & ADHESIVES

Jointing compound works to hide almost all blemishes from the surface of drywall including damage, drywall tape, holes, bumps and other minor damage. It can also be used to finish panel joints, corner bead, trim and fasteners as well as skim coating.

A complete range of ready mixed lightweight compounds and easy mixing powdered compounds are available. All compounds have low shrinkage and are easy to sand.

Gyproc Easi-Fill is ideal as a snagging product, suitable for small jointing jobs and patching repairs. It provides a high rate of coverage and minimal drying shrinkage, with a two-coat application. Available in 20, 45 and 60 minute working times.

Gyproc EasiFiller is a multi-purpose ready mixed wall and ceiling filler tub. It's perfect for making general repairs to plaster and plasterboard, such as filling holes and covering small cracks.

PLASTER & COVING

The preferred choice for generations of plasterers, Thistle plasters offer a full range of specific and multi-purpose solutions for all projects. Thistle Multi-Finish is the most popular universal skim finish plaster for common backgrounds; it can be used as part of a two-coat plaster system or on plasterboard as well as small repair jobs and patching.

Thistle plaster products are designed to suit either hand or machine application.

PLASTER	PRODUCT CODE

25kg Hardwall Plaster	2700012
25kg Multi-Finish Plaster	2700022

Coving provides an attractive feature to mask the junction between the wall and ceiling. The coving is easy to install and ready for decorating.

- ▶ Cove 90 is manufactured in a traditional cove profile
- ▶ Cove 120 is manufactured in a larger traditional cove profile

Our cove adhesive is fast setting with excellent adhesion and dries white. 5kg of cove adhesive will provide approx. coverage of 11 linear metres of cove.

FULL PALLET DEALS ON PLASTER AVAILABLE

SCREWS & ACCESSORIES

To get the job done we have a range of screws, tapes and access panels in stock specifically designed for use with plasterboard and drylining metalwork or timber.

TYPES OF SCREWS

- ▶ Bugle Head screw: To attach plasterboard to light metal or timber partitions.
- ▶ High Thread screw: To attach plasterboard to timber framework
- ▶ Pan Head screws: For connecting light gauge metal components
- ▶ Self Tapping screw: To attach plasterboard to thin gauge metal studwork
- ▶ Wafer Head screw: A low profile head with a wider diameter for connecting metal components beneath plasterboard.
- ▶ Wet Area screws: Ideal to use with the Aqua plasterboard on thick gauge metal studwork
- ▶ Collated screws: To attach plasterboard to timber framework. Collated screws are suitable for auto feed screw guns.
- ▶ Nailable Plugs: For the secondary mechanical fixing of Thermal Boards. Combination of masonry nail and plastic wall fixing.
